

SAFETY, HEALTH AND ENVIRONMENT POLICY (SHE)

In Terminal Petroquímica Altamira (TEPEAL) are committed in all moment for the activities of receiving, storage and distribution raw materials, as well as internal processes and administration areas Maintenance are carried out with principles of prevention, order, cleanliness and discipline to ensure:

- The physical integrity of all who work in the company, contractors, visitors, surrounding community and in general any person who enters Terminal. Also the integrity of the facilities.
- The conservation of the environment by preventing the contamination.
- Compliance with the Law applicable to Tepeal.
- Continuous improvement in aspects of SSOMA by setting objectives.

For this we have a system that promotes SSOMA principle that all incident / accident can be prevented and that if any event occurs, there is a culture applies or contingent plans that minimize its consequences.
